GET TOGETHER.

The lack of harmony which seems to exist in the Board of Supervisors and between that body and Sheriff Keolanui is an unfortunate state of affairs and is to be deplored. No greater check can be given to the effective working of county government than the quibbling over minor details of administration.

To be sure, the county is unfortunate in not having elected to the office of sheriff, a republican or one more in sympathy with a republican board of supervisors. As the official head of his office, the sheriff demands the right to remove and appoint his subordinates at pleasure, and with the cooperation of the Board of Supervisors this might be accomplished satisfactorily to all concerned. Whether the Board or the Sheriff has the original power to make appointments is a matter of expediency and of judicial interpretation. At all events, the Supervisors are the censors of the Sheriff's acts and have the last voice in recording their approval or disapproval, which should insure a correct administration of the Sheriff's office. By all means stop bickering and get together.

By the incorporation of the Hilo Jockey Club, that organization will acquire a status enjoyed by other racing associations, and with popular support, will build up a strong healthy interest in clean, honest horse racing.

Whether from oversight or otherwise, there seems to be a studied effort to make it difficult for persons desiring to be heard, to appear before the Board of Agriculture and Forestry on the proposed Hilo forest reserve.

Now that Captain Matson is here, no time should be lost in arriving at a satisfactory arrangement for the quick and economical transportation of fruit from this port.

Hilo Forest Reserve.

Acting Governor Atkinson has made official report proclamation, which appears in this issue, fixing Wednesday, July 19th, at 2 o'clock, at the offices of the Forestry Board, Honolulu, as the date and place of hearing of the proposed Hilo forest reserve. Roughly the proposed reserve is bounded as follows: Beginning at a point in the Flow of 1855 near the 1750 foot contour running in a line approximately parallel to the coast, above all homesteads to a point on the Hilo-Hamaku boundary line at about the 2000 foot contour, thence directly on the Hilo-Hamaku line to a point approximately at the top of the woods, thence along the top of the woods to the Flow of 1955, thence down the flow to the starting point. Private property rights will not be interfered with as far as possible and those who have property within and adjoining the reserve are requested to co-operate with the forestry division in its attempt to create a valuable reserve.

For County Offices.

The Committee on Internal Improvements, of which Supervisor Woods is chairman, appointed to secure suitable quarters for county officials, after looking at the Peacock Block, the Baldwin Block and other private buildings, has made a supplementary report to the Board, suggesting the acquisition from the Territory of the premises at the corner of Bridge and Waiannu streets, occupied by Wall Nichols Co., Ltd., and by the law firm of Ridgway & Ridgway. It is stated that the lease of this property from the Government expired July 1st, and the committee has written to Superintendent of Public Works Holloway as to whether the same can be secured for county purposes.

The Kohala Ditch.

A mortgage has been recorded in Honolulu from Sam Parker to his wife, Mrs. Campbell-Parker, to secure payment by the Kohala Ditch Co. to the Anglo California Bank of a sum not to exceed \$300,000, also payment of a note for \$37,500 to the Bank of Hawaii. The instrument covers Col. Parker's property in Hawaii, Maui and Oahu. Referring to the progress being made on the project, Engineer M. M. O'Shaughnessy says that there are now 45 tunnels under construction on the line of the Kohala ditch, and that between 8,000 and 8,500 feet of tunnels will be dug this month.

The capital stock of the corporation is fixed at \$10,000, divided into 500 shares of a par value of \$20 each, with a privilege of increase to \$50,000.

WEAKNESS SPRING FEVER

When you are weak, nervous, and all run down, everything seems to go wrong. Ayer's Sarsaparilla will build you up, make your nerves strong, and give you pure, rich blood. Here is what a nurse of large experience says about it.

Mrs. E. B. Chappell, Stawell, Victoria, sends us her photograph, and writes: "I have been a nurse for thirty-five years, and I take great pleasure in recording my experience with Ayer's Sarsaparilla and Ayer's Pills. I have used these medicines in different parts of the world, both for myself and my patients. I have had great success with them, especially in cases of nervous prostration, impure blood, skin diseases, and weakening illnesses in general. I most heartily recommend these medicines to all sufferers from any of the above-named distressing complaints."

AYER'S Sarsaparilla

There are many imitation Sarsaparillas. Be sure you get "Ayer's." Ayer's Pills cure constipation. Sugar-coated, mild, but effective. Prepared by Dr. J. C. Ayer Co., Lowell, Mass., U. S. A.

Spring Fever is considered a joke — when someone else has it — but the condition is in reality no joke. Spring Fever is one of the terms applied to that general relaxed condition of the system which is so common at this season. It indicates, as a rule, a loss of vitality and a disordered condition of the blood. An effective remedy should be promptly used, because this condition readily becomes chronic. Our
